

## Pellets

Over the last 15 years or so pellets have become probably the most widely used type of bait in Coarse angling.

Coarse Pellets are designed for the Carp farming industry but are effective for all types of coarse fish including Tench, Bream and Roach.

Trout Pellets were initially created for Trout farming whilst Halibut pellets are made for the Marine fish farming industry. These latter two types of pellet contain a lot more oil which leaks into the water and often provide 'the edge' on heavily fished waters and in competitive situations. Halibut Pellets in particular have become very popular baits in recent years and are also known to be effective on rivers for species such as Chub and Barbel. Lake Wizard also has a range of flavoured pellets if you want to try something different or want to have that extra 'edge'. Flavours available include; Tutti frutti, Scopex, Green Lipped Mussel and Bloodworm.

Pellets make a great loose feed as an alternative to traditional groundbait mixes. Try using a mixture of sizes and types. With this approach you'll find different pellets dissolve at different rates: smaller coarse pellets will dissolve quickly dispersing flavour and oils thus attracting fish which find larger pellets to feed on which are still in tact. The 2mm coarse pellets also make a great method mix, simply scold with boiling water and allow to cool. The pellets will then soften and can be easily squeezed around a method feeder.

When using pellets as a loose feed attractor ideal baits include the Lake Wizard soft hook pellets, Lake wizard boilies or the new pre – drilled halibut pellets.

# Fishing Baits & Aquaculture

# Welcome to Lake Wizard

*A range of quality baits and ingredients brought to the angler with quality and price in mind.*

At Lake Wizard we keep costs to a minimum and buy direct from source to keep the price low, this gives all anglers whether big carp fanatics, match-men or the casual angler, not only a high quality bait, but also a great price. All ready-made baits are made to the highest specification by one of the industries leading innovators and manufacturers. Combine this with our experienced raw ingredient buyers and you get,

**QUALITY BAIT AT A COMPETITIVE PRICE**

### Competition Winner

Richard Gostling with a 30lbs 202s Mirror Carp caught on Lake Wizard bait from a Suffolk Lake.

Please email your experience and photos of fishing with Lake Wizard to: [pics@lakewizard.co.uk](mailto:pics@lakewizard.co.uk)  
A list of stockists are available on the Lake Wizard web site

## Prize Giveaway

A £10.00 Lake Wizard voucher is available each month for the most interesting picture or email! And will be published on the web site. email entries to: [pics@lakewizard.co.uk](mailto:pics@lakewizard.co.uk)

## Boilies

These come in five proven flavours: Halibut, Strawberry, Scopex, Tutti Frutti & White Chocolate. These are a good quality boilie at a competitive price and are proven catchers of Carp as well as Tench and Bream. These can be either side hooked or hair rigged and are particularly useful as a hookbait when loose feeding pellets.

## Liquids

These come in five popular flavours to match other products in the range; Halibut, Strawberry, Scopex, Tutti Frutti & Green Lipped Mussel. Add liberally to your water when mixing groundbaits to give your mix it's own unique aroma. These can also be used to flavour pellets or floating baits. Put 15-20ml of liquid in a plastic bag then add 1 kg of pellets and shake vigorously for a minute. Leave standing and the pellets will absorb the flavour.

## Soft Hook Pellets

These come in four proven flavours: Halibut, Strawberry, Scopex & Green Lipped Mussel.

As the name suggests these are easy to hook and are ideal when loose feeding pellets when targeting Carp, Tench, Bream and other coarse fish. These are very popular when fishing commercial fisheries.

## Floating Carp bait

These come in four proven flavours; Halibut, Strawberry, Scopex & Natural. These are a brilliant bait when loose feeding floating pellets or dog biscuits for surface feeding Carp.

These are ready prepared and can be hooked in seconds and being naturally flavoured they will stand out from your free offerings.

## Particle Baits

Great baits for catching Carp and also other species such as Tench and Bream. The Lake Wizard range includes; Tiger Nuts, Maize, Peanuts, Maple Peas, Hemp and Pigeon Conditioner (aka Parti blend). The range also includes Hemp, Mega Maize and Tiger nuts which are ready prepared for fishing with. Other particle baits which are available in bulk need careful preparation as follows;

### How to Prepare

Particle	Soak in Water	Boil
Hemp	12 - 14 Hours	30 mins or until split
Tiger Nuts	24 hours	30 mins
Peanuts	18 hours	20-30 mins
Maple Peas	12-14 hours	20-30 mins
Maize	24 hours	30 mins
Pigeon Conditioner	N/A	1 minute

Simply empty a Kettle full of boiled water onto Pigeon Conditioner, allow to cool and it's ready to use. The biggest Carp caught using lake wizard pigeon conditioner in 2009 weighed over 51 pounds.

Crushed Hemp  
CHEMP2

## Ingredients

Top quality ingredients for use in groundbait, boilie or stick mixes. Maize meal:- good bulk ingredient, also useful for dusting maggots to prevent sweating. Tiger nut flour:- Very popular for Boilies and stick mixes. Crushed Hemp :- Brilliant for making groundbaits fizz and break up quickly. Tiger Nut extract:- often used in boilie or groundbait mixes.
